EUROGRAPHICS Italian Chapter is the Italian Section of the EUROGRAPHICS association. Our mission is to promote the Computer Graphics in Italy providing means of communication among researchers in this field: meetings, forums and periodical conferences.

The first EUROGRAPHICS Italian Chapter Conference has been held in 2002 at the School of Industrial Design of the Politecnico di Milano.
The second one has been held at the Department of Mechanics of the Politecnico di Milano –Bovisa in 2003.
EUROGRAPHICS Italian Chapter has also organized the Winter School on Interactive Graphics in Pisa in 2005. The school has been hosted by ISTI-CNR.
The Fourth EUROGRAPHICS Italian Conference will be held on February 22-24, 2006 at the Department of Mathematics and Computer Science of the University of Catania (Sicily).

The purpose of the upcoming Conference is to provide a forum for discussion and exchanges about the state of the art of the research and its applications in Computer Graphics. Topics of interest include: geometric modelling, visualization, simulation, interactive graphics, virtual reality, cultural heritage, and other related topics.

International speakers will be invited at the Conference to present overview about recent results in area that are nowadays of specific interest and relevance. The Conference will also include technical tutorials.

The Conference is especially aimed to provide a stimulating space for young researchers and Ph.D. students. They will have the possibility to present the results of their research, and to interact with their scientific peers, in a friendly and constructive environment.

**** CALL FOR PAPERS ****

Young researchers and Graduate Students are invited to send papers to eg_06@dmi.unict.it.
The papers of about 4-6 pages should be written in English and should be sent in a printable pdf format. Papers must be formatted according to instructions in the Eurographics paper kit (available on the web site).
